MARIANO PIVA

Fullstack Developer

mpiva24@gmail.com | +54 9 342 536 4800 | nanop.com.ar | linkedin.com/in/mariano-piva-551964307 | github.com/nanopiva

PROFILE

Fullstack developer with Java and Spring Boot on the backend and React and Next.js on the frontend. I built Citero, an appointment and booking platform that is live in production. Trilingual: Spanish, English and Italian.

SKILLS

Backend: Java, Spring Boot, Spring Security, Spring Data JPA, REST APIs, JWT, Maven

Frontend: React, Next.js, TypeScript

Databases: PostgreSQL, SQL, Supabase, Neon

Tools: Git, GitHub, Vercel

PROJECTS

Citero | Appointment and Booking Platform (Java + Spring Boot)

citero.app · github.com/nanopiva/citero-backend · github.com/nanopiva/citero-frontend

- REST API in Java 21 and Spring Boot for service businesses, with contextual roles (owner/staff) and workspaces.
- Availability engine on a 15-minute grid: timezone per business, weekly rules, date exceptions and overlap detection.
- JWT authentication with rotating refresh token (reuse detection), OTP verification and two-factor authentication (TOTP), on PostgreSQL.
- Automated email reminders 24 h and 2 h before the appointment. Frontend with Next.js, TypeScript and Tailwind CSS.

MutualDesk | Collaborative Text Editor

v0-mutual-desk-v9gidesob5y.vercel.app · github.com/nanopiva/mutualdeskapp

- App inspired by Google Docs for editing documents with several users.
- Authentication and management of projects, groups, contacts and invitations. Next.js, TypeScript and Supabase.

Lumen | E-commerce with CMS

lumen-phi-nine.vercel.app · github.com/nanopiva/lumen

- Store with search and filters by category, brand and price, cart, and a simulated checkout that sends the confirmation email with Resend.
- Admin panel (CMS) for products, orders, categories, subcategories and brands, with restricted access. Next.js, TypeScript and Supabase.

WORK EXPERIENCE

Web Developer (Freelance) | Koble Feb 2025 – Mar 2025 | Santa Fe, Argentina

koble.com.ar · github.com/nanopiva/koble

- Built the corporate website for a CRM consultancy with Next.js and CSS Modules, across 6 pages (home, services, about, contact and legal).
- Implemented the contact form with email notifications and set up sitemap, robots and metadata for SEO.

Web Developer (Freelance) | CYC Soluciones Legales Mar 2025 – Apr 2025 | Santa Fe, Argentina

cycsolucioneslegales.com.ar · github.com/nanopiva/cycestudio

- Built the firm's first website with Next.js and CSS Modules, across 4 routes (home, practice areas, about and contact).
- Built reusable components and a structure designed for SEO, with a responsive design.

EDUCATION

Technical Degree in Software Development | IES (Instituto de Estudios Superiores) 2025 – Present | Santa Fe, Argentina

Fullstack JavaScript Bootcamp | CódigoFacilito Oct 2024 – Jan 2025 | Online

LANGUAGES

Spanish (native) | English (advanced, B2+) | Italian (intermediate, B2, PLIDA certification)
